Art Unit: 2193

1. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per independent claim 1, the claim recites a single "cascade integration-comb filter" (line 3) and single "fractional sample rate converter" (line 4); however, Fig. 1 shows two separate "cascade integration-comb filters" (line 3) and two "fractional sample rate converters". Also, the phrases "first of said cascade integration-comb filters and said fractional sample rate converters" (lines 7-8), and "second of said cascade integration-comb filters and said fractional sample rate converters" (lines 11-12) are contradiction with the single "cascade integration-comb filter" (line 3) and single "fractional sample rate converter" (line 4). Clarification is requested. Similarly noted independent claims 19-20.

2. Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cited references are art of interest.

4. The following is an examiner's statement of reasons for allowance: the recorded references do NOT teach or suggest the combined of "cascade integration-comb filter"

and "fractional sample rate converter" for providing a signal having different sampling rate as recited in independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
